

The Trail to Benham Falls

Both trails marked with Mt. Bike Trail signs shown at left.

Family Friendly Trail: (about 2.5 miles)

From pathway system: Cross East Cascade on the pathway just east of circle 7. At the Y, bear right, crossing the canoe take out road. The path will lead you to Road 600. Follow Road 600 to its junction with Road 660. Turn left. The next intersection will be with Road 612 on your left, do not turn left. Road 015 will cross your road followed closely by a power line, you are now on Road 607. Continue straight. At the next Y, Road 600 bears right, you take the left fork. This will lead you to the paved road to the Benham Falls visitors area. Turn left on the paved road.

Difficult Trail: (about 3.5 miles)

The difficult trail to Benham Falls was constructed in the fall of 2003. It is a narrow, marked trail and has steep elevation changes. It heads north from the parking area until it reaches the river near the canoe take out point. It then runs north/northwest not far from the river paralleling Road 620 to where it crosses the power line. The trail then winds its way to the Benham Falls visitors area dropping down to the parking area from a high ridge.
